

## **PE and sports premium 2015-16**

Parkwood Hall received £2,875.00 for the 2015-16 academic year. This will be spent on games equipment for the playground to encourage and develop social skills, team work, fine and gross motor skills and spatial awareness. It will also encourage students to be more active during this time.

We are also subsidising swimming lessons to enable all classes to access this activity. Students will benefit from developing water safety skills and learning to swim, as well as confidence in the water and accessing a different environment.
